

Make a build

Summary of things I did

- Created a GitHub account.
- Added the desktop version to my computer
- Changed the tennis ball to a soccer ball and position it in the 0,0,0 location
- Changed the scale of the ball to 1
- Took a snapshot
- Created the Github file for this assignment
- I made a build of the Penalty kick scene and added it to the Github assignment file on my computer
- I published everything in github
